Firewall Management Migration Overview

Unlock Intelligent Cloud Management

Migrate from your on-premises Firewall Management Center (FMC) for as little as nothing

This guide is for you if you operate:

- A Cisco on-premises FMC appliance
- Firewall Threat Defense (FTD) devices

Migration Options

Cloud Integration

- **On-Premises:** Keep your on-premise FMC appliance for FTD management
- **Cloud:** Access a subset of intelligent security domain capabilities in Cisco Cloud Countrol

Ideal if your organization is:

Looking to improve security posture with existing investments in Cisco Secure Firewall.

Full Cloud

AI-driven management, monitoring, and event logging via Security in Cisco Cloud Control

Ideal if your organization is:

Pursuing a cloud-first strategy to boost OpEx efficiency and avoid the CapEx of on-premises upgrades.

Explore the Benefits of Intelligent Cloud Management

Policy analyzer & optimizer

Automatically identifies and suggests improvements for network policies

Cisco AI Assistant

Simplifies tasks, enhances decision-making, and accelerates workflows

Feature adoption

Reveals how effectively you're leveraging your investment's full potential

Best practice recommendation

Guidance toward optimal configurations for improved security and performance

Secure mgt access from anywhere

Securely manage your environment from a web browser without VPN

No on-premises FMC appliance

Eliminate maintenance, space,and power costs of on-premises hardware

Latest mgt firmware with zero overhead

Get the latest features and security updates without manual effort or downtime

99.99% uptime SLA without HA

Guaranteed high availability without the need to maintain a dedicated HA setup

Auto backups

Regular backup of configurations that can be easily restored if needed

Elastic scale: add/remove devices

Add or remove FTDs without worrying about exceeding on-premises appliance capacity

Combined visibility of FTD & ASA events

Unified view of security eventsacross FTD and ASAs for mixed deployments

Third-party policy management

Consolidate multiple security tools including 3rd party polices into a single AI-driven platform

Start Migrating From as Little as Nothing

3-Year Migration Cost Comparison

Example: Migrating from...

x1 on-premises FMC appliance

x10 1010 FTDs

Cloud Integration		Fully Cloud	
Upfront Costs			
Security Cloud Control Tenant	$0	**Firewall management tenant** Fixed cost	$6,750
		Device Cloud Management $6,750x10 1010 FTDs	$675
		SAL 1GB / Device / Day + 90 Days rentention for x10 1010 FTDs	$7,500
Operating Costs			
On-premises appliance updates 8hrs / quarter x $150/hr x 3yrs	$14,400	**No on-premises appliance**	$0
Audits Disaster recovery, backup etc.	$0+		
VM hosting subscription	$0+		
VM maintenance	$0+

Automated Migration

Workflow Summary

User Interface Key: FMC | Security in Cisco Cloud Control

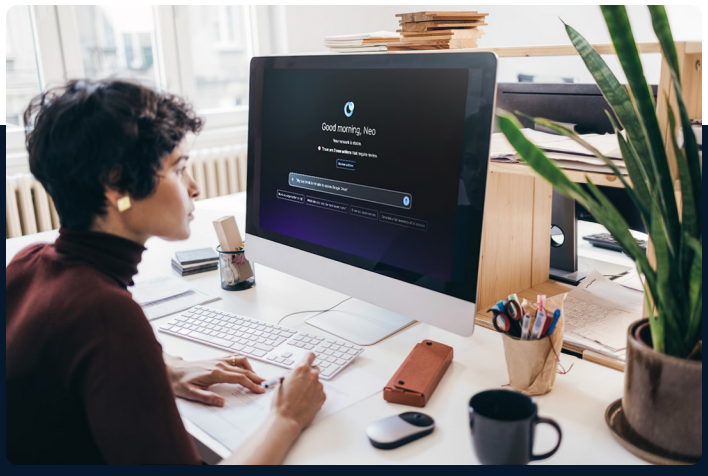

Cloud Integration

1. Create Account & Tenant
2. Enable Firewall Management & FMC Discovery
3. Enable Cisco Cloud Control Integration
4. Enable AI Assistant & Policy Analyzer & Optimizer

Fully Cloud

1. Create Account & Tenant
2. Enable Firewall Management & FMC Discovery
3. Enable Cisco Cloud Control Integration
4. Intiate Migration Wizard
5. Select on-premises FMC & FTD devices
6. Execute & Verify
