

Preface

This preface describes the audience, organization, acronyms, and conventions used in the document.

This document contains the following sections:

- Audience, on page i
- Document Conventions, on page i
- List of Acronyms and Abbreviations, on page ii
- Communications, services, and additional information, on page ii

Audience

This guide is meant for account administrators who manage the Cisco Spaces user accounts and perform the configurations required for Cisco Spaces. This guide is also meant for business and store administrators who use Cisco Spaces to create the proximity rules to send notifications to customers and business users.

Other target audience includes portal designers and access code managers.

Document Conventions

This document uses the following conventions:

Table 1: Document Conventions

Convention	Description
Boldface	Commands, command options, and keywords are in boldface.
Italics	Arguments for which you supply values are in italics
Option > Option	Used to describe a series of menu options.

Note Means reader take note. Notes contain helpful suggestions or references to material not covered in this guide.

Tip Means *reader take tip*. Tips contain helpful suggestions to resolve issues.

List of Acronyms and Abbreviations

Table 2: List of Acronyms and Abbreviations

Acronym	Expansion
ACL	Access Control List
BLE	Bluetooth Low Energy
CUWN	Cisco Unified Wireless Network
CNA	Captive Network Assistant
RSSI	Received Signal Strength Indicator
SSID	Service Set Identifier
UUID	Universally Unique Identifier

Communications, services, and additional information

- To receive timely, relevant information from Cisco, sign up at Cisco Profile Manager.
- To get the business impact you're looking for with the technologies that matter, visit Cisco Services.
- To submit a service request, visit Cisco Support.
- To discover and browse secure, validated enterprise-class apps, products, solutions, and services, visit Cisco DevNet.
- To obtain general networking, training, and certification titles, visit Cisco Press.
- To find warranty information for a specific product or product family, access Cisco Warranty Finder.

Cisco Bug Search Tool

Cisco Bug Search Tool (BST) is a gateway to the Cisco bug-tracking system, which maintains a comprehensive list of defects and vulnerabilities in Cisco products and software. The BST provides you with detailed defect information about your products and software.

Documentation feedback

To provide feedback about Cisco technical documentation, use the feedback form available in the right pane of every online document.
